

St Andrews college Jr school

In my opinion, after I do this interview I think I *will* think every child should go to St Andrews college Jr school!

We here are interviewing Sarah Mc Cormack, principal of the school. We think that if we interview the principal of the school, then we might just get to know a bit more about how this school works.

Q.what do you do here at SACJS?

A. At St Andrews college Jr school, we nurture children of more than forty nationalities and pride ourselves on offering a safe, supportive and stimulating environment in which pupils can flourish into fine, social adults.

Q.how many teachers do you have here?

A.If I have counted correctly, we have 12 *class* teachers, and 6 extra activity teachers.

Q. ok, thank you for your time .

Well, *that* was a short interview. When I get back I am making sure that the interview writer is fired.

Well anyway, to prove that parents & children alike might like the school because:

(For parents!) No more packing lunches for your child. Hot or cold lunches sold at the cafeteria!

(for kids!) Do you like art? Well then, you've come to the right place! There's no such thing as "no art supplies".

Also, if you like coding, look no further! We have MacBooks and coding teachers called "whizz kids". We also have a sports hall, a library, an art room, and a music room. We also have a singing teacher, and personal music teachers for piano cello and much more! And we also have a rugby pitch, hockey pitch and a tennis court.

Lastly I think,(I think you might too after this article) that everyone should go to St Andrews Jr school.
